THE BELL SYSTEM
TECHNICAL JOURNAL

VOLUME XXX, 1951

Table of Contents

JANUARY 1951

The Type N-1 Carrier Telephone System: Objectives and Transmission Features—*R. S. Caruthers* 1
Television by Pulse Code Modulation—*W. M. Goodall* 33
Prediction and Entropy of Printed English—*C. E. Shannon* 50
A Submarine Telephone Cable with Submerged Repeaters—*J. J. Gilbert* 65
Theory of the Negative Impedance Converter—*J. L. Merrill* 88
The Ring Armature Telephone Receiver—*E. E. Mott and R. C. Miner* .. 110
Internal Temperatures of Relay Windings—*R. L. Peek* 141
The Evolution of Inductive Loading for Bell System Telephone Facilities—*T. Shaw* 149

APRIL 1951

The Seventy-fifth Anniversary of the Telephone 213
Seventy-five Years of the Telephone: An Evolution in Technology—*W. H. Martin* 215
An Improved Telephone Set—*A. H. Inglis and W. L. Tuffnell* 239
Pyrolytic Film Resistors: Carbon and Borocarbon—*R. O. Grisdale, A. C. Pfister, and W. van Roosbroeck* 271
The Potential Analogue Method of Network Synthesis—*Sidney Darlington* 315
Zero Temperature Coefficient Quartz Crystals for Very High Temperatures—*W. P. Mason* 366
Duality as a Guide in Transitor Circuit Design—*R. L. Wallace, Jr. and G. Raisbeck* 381
Some Design Features of the N-1 Carrier Telephone System—*W. E. Kahl and L. Pedersen* 418
The Evolution of Inductive Loading for Bell System Telephone Facilities (Continued)—*Thomas Shaw* 447

JULY 1951

Reduction of Skin Effect Losses by the Use of Laminated Conductors —*A. M. Clogston* 491

Some Circuit Properties and Applications of n-p-n Transistors—*R. L. Wallace, Jr. and W. J. Pietenpol* 530
A Photographic Method for Displaying Sound Wave and Microwave Space Patterns—*W. E. Kock and F. K. Harvey* 564
Some Basic Concepts of Translators and Identifiers Used in Telephone Switching Systems—*H. H. Schneckloth* 588
Waves in Electron Streams and Circuits—*J. R. Pierce* 626
Interaxial Spacing and Dielectric Constant of Pairs in Multipaired Cables—*J. T. Maupin* 652
N-Terminal Switching Circuits—*E. N. Gilbert* 668
Coaxial Impedance Standards—*R. A. Kempf* 689
Instantaneous Compandors—*C. O. Mallinckrodt* 706
The Evolution of Inductive Loading for Bell System Telephone Facilities (Continued)—*Thomas Shaw* 721

OCTOBER 1951—PART I

Dr. C. J. Davisson—*M. J. Kelly* 779
The Scientific Work of C. J. Davisson—*Karl K. Darrow* 786
Inorganic Replication in Electron Microscopy—*C. J. Calbick* 798
A Gun for Starting Electrons Straight in a Magnetic Field—*J. R. Pierce* 825
Electron Streams in a Diode—*Frank Gray* 830
The Davisson Cathode Ray Television Tube Using Deflection Modulation—*A. G. Jensen* 855
Electron Transmission Through Thin Metal Sections with Application to Self-Recovery in Cold Worked Aluminum—*R. D. Heidenreich* 867
On the Reflection of Electrons by Metallic Crystals—*L. A. MacColl* 888
The Use of the Field Emission Electron Microscope in Adsorption Studies of W on W and Ba on W—*J. A. Becker* 907
Heat Dissipation at the Electrodes of a Short Electric Arc—*L. H. Germer* 933
Detwinning Ferroelectric Crystals—*Elizabeth A. Wood* 945
Longitudinal Modes of Elastic Waves in Isotropic Cylinders and Slabs—*A. N. Holden* 956
Frequency Dependence of Elastic Constants and Losses in Nickel—*R. M. Bozorth, W. P. Mason and H. J. McSkimin* 970
Hot Electrons in Germanium and Ohm's Law—*W. Shockley* 990

OCTOBER 1951—PART II

The TD-2 Microwave Radio-Relay System—*A. A. Roetken, K. D. Smith and R. W. Friis* 1041

Deterioration of Organic Polymers—*B. S. Biggs* 1078
The Development of Electron Tubes for a New Coaxial Transmission System—*G. T. Ford and E. J. Walsh* 1103
Telephone Traffic Time Average—*John Riordan* 1129
The Reproduction of Magnetically Recorded Signals—*R. L. Wallace, Jr.* 1145
Some Results Concerning the Partial Differential Equations Describing the Flow of Holes and Electrons in Semi-conductors—*R. C. Prim, III* 1174
Instantaneous Compandors on Narrow Band Speech Channels—*J. C. Lozier* 1214
The Evolution of Inductive Loading for Bell System Telephone Facilities—*Thomas Shaw* 1221

Index to Volume XXX

A

Adsorption Studies of W on W and Ba on W, The Use of the Field Emission Electron Microscope in, *J. A. Becker*, page 907.
Aluminum, Cold Worked, Electron Transmission Through Thin Metal Sections with Application to Self-Recovery in, *R. D. Heidenreich*, page 867.
Anniversary, The Seventy-fifth, of the Telephone, page 213.
Applications of *n-p-n* Transistors, Some Circuit Properties and, *R. L. Wallace, Jr., and W. J. Pietenpol*, page 530.
Arc, Short Electric, Heat Dissipation at the Electrodes of a, *L. H. Germer*, page 933.
Armature, Ring, Telephone Receiver, The, *E. E. Mott and R. C. Miner*, page 110.
Average, Telephone Traffic Time, *John Riordan*, page 1129.

B

Becker, J. A., The Use of the Field Emission Electron Microscope in Adsorption Studies of W on W and Ba on W, page 907.
Biggs, B. S., Deterioration of Organic Polymer, page 1078.
Borocarbon, Carbon and: Pyrolytic Film Resistors, *R. O. Grisdale, A. C. Pfister, and W. van Roosbroeck*, page 271.
Bozorth, R. M., Mason, W. P. and McSkimin, H. J., Frequency Dependence of Elastic Constants and Losses in Nickel, page 970.

C

Cable, Submarine Telephone, with Submerged Repeaters, A, *J. J. Gilbert*, page 65.
Cables, Multipaired, Interaxial Spacing and Dielectric Constant of Pairs in, *J. T. Maupin*, page 652.
Calbick, C. J., Inorganic Replication in Electron Microscopy, page 798.
Carbon and Borocarbon: Pyrolytic Film Resistors, *R. O. Grisdale, A. C. Pfister, and W. van Roosbroeck*, page 271.
Carrier, N-1, Telephone System, Some Design Features of the, *W. E. Kahl and L. Pedersen*, page 418.
Carrier Telephone System Objectives and Transmission Features, The Type N-1, *R. S. Caruthers*, page 1.
Caruthers, R. S., The Type N-1 Carrier Telephone System Objectives and Transmission Features, page 1.
Circuit Design, Transistor, Duality as a Guide in, *R. L. Wallace, Jr. and G. Raisbeck*, page 381.
Circuit Properties and Applications of *n-p-n* Transistors, Some, *R. L. Wallace, Jr., and W. J. Pietenpol*, page 530.
Circuits, Waves in Electron Streams and, *J. R. Pierce*, page 626.
Clogston, A. M., Reduction of Skin Effect Losses by the Use of Laminated Conductors, page 491.
Coaxial Impedance Standard, *R. A. Kempf*, page 689.
Coaxial Transmission System, New, The Development of Electron Tubes for a, *G. T. Ford and E. J. Walsh*, page 1103.
Coefficient Quartz Crystals for very High Temperatures, Zero Temperature, *W. P. Mason*, page 366.
Compandors, Instantaneous, *C. O. Mallinckrodt*, page 706.
Compandors, Instantaneous, on Narrow Band Speech Channels, *J. C. Lozier*, page 1214.
Concepts of Translators and Identifiers Used in Telephone Switching Systems, Some Basic, *H. H. Schneckloth*, page 588.
Conductors, Laminated, Reduction of Skin Effect Losses by the Use of, *A. M. Clogston*, page 491.
Constants and Losses, Elastic, in Nickel, Frequency Dependence of, *R. M. Bozorth, W. P. Mason and H. J. McSkimin*, page 970.

Converter, Negative Impedance, Theory of the, *J. L. Merrill*, page 88.
Crystals, Detwinning Ferroelectric, *Elizabeth A. Wood*, page 945.
Crystals, Metallic, On the Reflection of Electrons by, *L. A. MacColl*, page 888.
Crystals, Quartz, for Very High Temperatures, Zero Temperature Coefficient, *W. P. Mason*, page 366.
Cylinders and Slabs, Isotropic, Longitudinal Modes of Elastic Waves in, *A. N. Holden*, page 956.

D

Darlington, Sidney, The Potential Analogue Method of Network Synthesis, page 315.
Darrow, Karl K., The Scientific Work of C. J. Davisson, page 786.
Davisson Cathode Ray Television Tube Using Deflection Modulation, The, *A. G. Jensen*, page 855.
Davisson, C. J., The Scientific Work of, *Karl K. Darrow*, page 786.
Davisson, Dr. C. J., *M. J. Kelly*, page 779.
Deterioration of Organic Polymers, *B. S. Biggs*, page 1078.
Detwinning Ferroelectric Crystals, *Elizabeth A. Wood*, page 945.
Dielectric Constant of Pairs in Multipaired Cables, Interaxial Spacing and, *J. T. Maupin*, page 652.
Diode, Electron Streams in a, *Frank Gray*, page 830.
Dissipation, Heat, at the Electrodes of a Short Electric Arc, *L. H. Germer*, page 933.
Duality as a Guide in Transistor Circuit Design, *R. L. Wallace, Jr. and G. Raisbeck*, page 381.

E

Electron Microscope, Field Emission, in Adsorption Studies of W on W and Ba on W, The Use of the, *J. A. Becker*, page 907.
Electron Microscopy, Inorganic Replication in, *C. J. Calbick*, page 798.
Electron Streams and Circuits, Waves in, *J. R. Pierce*, page 626.
Electron Streams in a Diode, *Frank Gray*, page 830.
Electrons in Semiconductors, Some Results Concerning the Partial Differential Equations Describing the Flow of Holes and, *R. C. Prim, III*, page 1174.
Electrons, Hot, in Germanium and Ohm's Law, *W. Shockley*, page 990.
Electrons by Metallic Crystals, On the Reflection of, *L. A. MacColl*, page 888.
Electrons Straight in a Magnetic Field, A Gun for Starting, *J. R. Pierce*, page 825.
English, Printed, Prediction and Entropy of, *C. E. Shannon*, page 50.
Entropy of Printed English, Prediction and, *C. E. Shannon*, page 50.
Equations Describing the Flow of Holes and Electrons in Semiconductors, Some Results Concerning the Partial Differential, *R. C. Prim, III*, page 1174.
Evolution of Inductive Loading for Bell System Telephone Facilities, The, *Thomas Shaw*, pages 149, 447, 721, 1221.
Evolution in Technology, An, Seventy-five Years of the Telephone:, *W. H. Martin*, page 215.
